## District Common Assessments

In recent years, the state of California has adopted more rigorous college and career focused curricular standards in English Language Arts (ELA), English Language Development (ELD), mathematics, and science and has made substantial changes to state level assessment. As a result, districts have had to critically evaluate their local assessments and assessment practices. An analysis of current District administered assessments reveals that the District is overly reliant on assessments provided by the state for information on how students are progressing. These assessments are only administered on an annual basis and often there is a lengthy time lag from when the assessments are administered to when data are available for use which makes it difficult for this information to be used to impact instruction for students.

The District has developed a comprehensive system of District common assessments, which are designed to be administered three to four times a year and include foundational reading, English Language Arts, and math. The assessments at the start of the year are designed to assess unfinished learning of the previous year's learning. The remaining assessments are designed to provide stakeholders with ongoing information about student performance and progress on grade level standards. A copy of the District's assessments plan and calendar is included with the attached supporting documents.

Currently, the District is unable to administer its common assessments pursuant to the Arbitrator's decision rendered on January 11, 2021 in Case No. 20-0000-2531. The decision and related documents are accessible on the District's website at: <https://www.scusd.edu/document/source/documents/legal-matters>. A copy of the decision is
