RESOLUTION NO. 3432

RESOLUTION TO APPROVE A CHANGE IN STATUTORY SCHOOL FEES IMPOSED ON NEW RESIDENTIAL AND COMMERCIAL/INDUSTRIAL CONSTRUCTION PURSUANT TO EDUCATION CODE SECTION 17620 AND GOVERNMENT CODE SECTION 65995

School District ("District") provides for the educational needs for Grade TK-12 students within portions of the Cities of Rancho Cordova and Sacramento located within the County of Sacramento; and

WHEREAS, new residential and commercial/industrial development continues to generate additional students for the District's schools, and the District is required to

facilities r commensi	equired in response to rate with that presently	new student g	rowth and to n	naintain a level sition or lease o	of service

consisting of the proceeds of school fees, have been imposed for the purposes of construction and reconstruction of those school facilities necessitated by new residential and commercial/industrial development, and that these funds may be expended for those purposes.

- 9. That in accordance with Education Code section 17620(a)(5), the fees may also be expended by the District for the costs of performing any study or otherwise making the findings and determinations required under Government Code section 66001, subdivisions (a), (b), and (d) and, in addition, the District may also retain, as appropriate, an amount not to exceed in any fiscal year, three percent (3%) of the school fees collected in that fiscal year for reimbursement of the administrative costs incurred by the District in collecting the fees.
- 10. That there are no other adequate sources of funds to meet the District's school facilities needs occasioned by, and resulting from, the construction of new residential and/or commercial/industrial development within the District.

AND BE IT FURTHER RESOLVED that the Board incorporates herein by reference, approves and adopts the Fee Study prepared by Koppel & Gruber Public Finance which documents the need for the school facilities fees.

AND BE IT FURTHER RESOLVED that since the Fee Study justifies fees lower than the allowable limits, the District hereby changes the school fees on residential and commercial/industrial development to the following, which is in accordance with Education—Code_sections 17620 et sea, and Government Code_sections 65005 et_sea.

SECTION I. LEGISLATION AND LEGAL REQUIREMENTS

This section discusses the legislative history of the Level I Fee.

Legislation" granted school districts the right to levy fees in order to offset the impacts to school facilities from new residential and commercial development. Originally set forth in Sections 53080 and 65995 of the Government Code, AB 2926 authorized statutory school fees to be levied, commencing January 1, 1987, in the amount of \$1.50 per square foot of new residential assessable space and \$0.25 per square foot of enclosed commercial or industrial assessable space. AB 2926 also provided for an annual increase of the statutory fees based on the Statewide cost index for Class B construction. as determined by the SAB. The provisions of AB 2926 have since been amended and expanded.

AB 1600 was enacted by the State legislature in 1987 and created Government Code Sections

SB 50 also limited the power of cities and counties to require mitigation of school facilities impacts as a condition of approving new development and suspended the court cases known as
mitigation foos in aveces of echool foos under cortain sireumetaness

B. PROJECTED UNHOUSED STUDENTS

1. Projected Residential Units

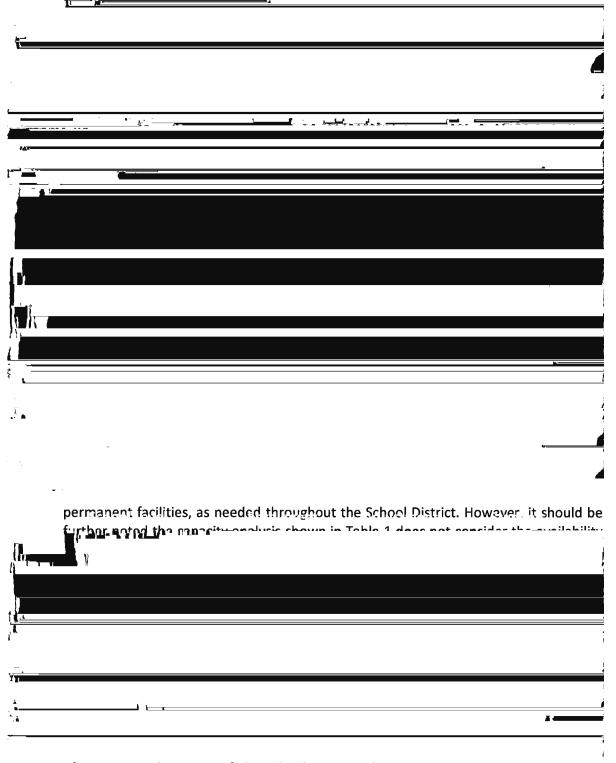

To estimate projected residential unit growth over the next ten (10) years, Koppel & Gruber Public Finance ("K&G Public Finance") obtained and compiled planned and

exceed 25% of the School District's permanent classrooms, as one of the objectives of the SFP program is to provide funding for the replacement of portable classrooms with permanent facilities. Overall, portable classrooms account for approximately 25% of the School District's classroom inventory; however, at the Elementary School level, portable classrooms account for over 40% of the total classroom inventory. The findings suggest that deficit capacity at the Elementary School level is largely a result of the exclusion of a number of portable classrooms as instructed under the SEP Regulations, and an

C. FACILITY NEEDS AND ESTIMATED PER SEAT/STUDENT COST

1. Facilities Needs

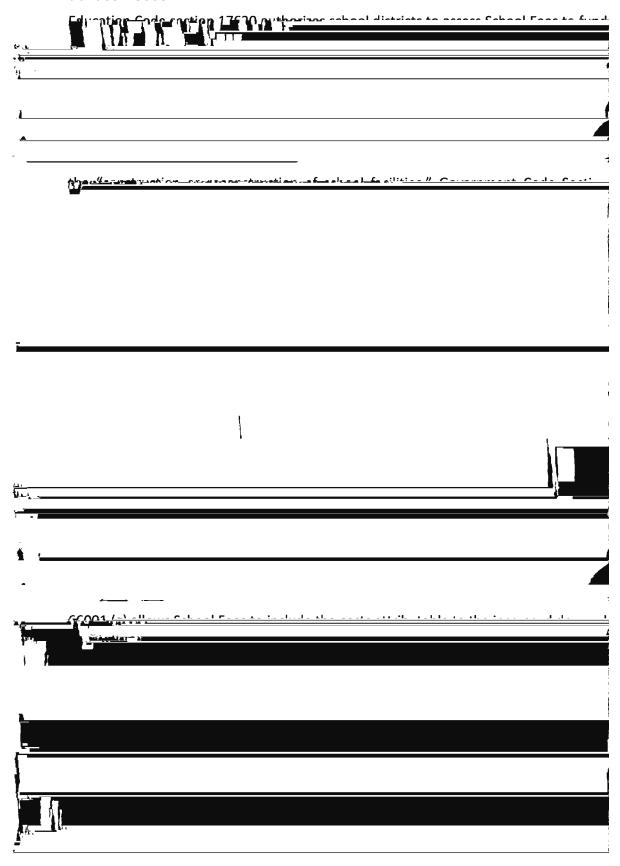

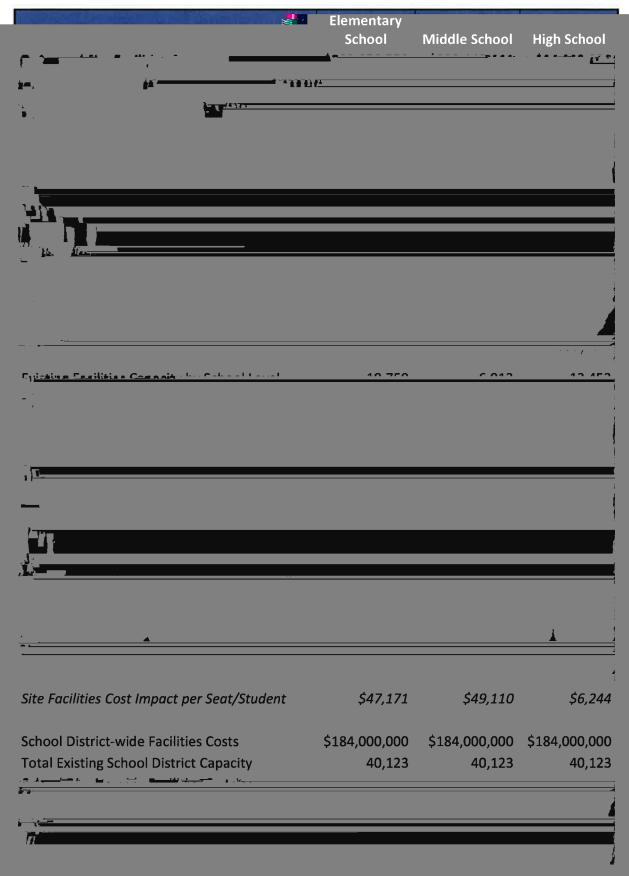

TABLE 7
Total Facilities Cost Impact Per Seat/Student

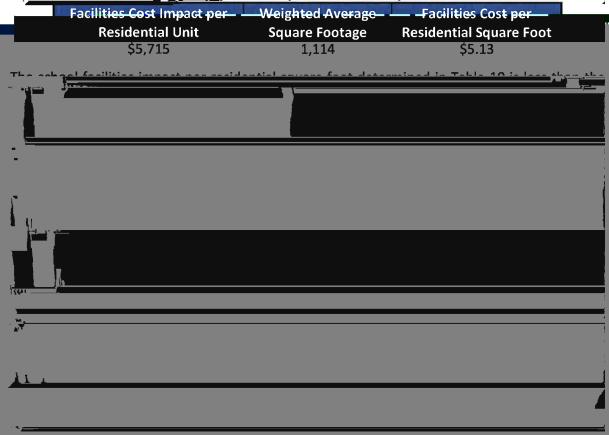

SECTION III. PROJECTED IMPACT OF RESIDENTIAL DEVELOPMENT

The following sections present the school facility impact analysis for new residential development and provide step-by-step calculations of the estimated per residential square foot cost impact.

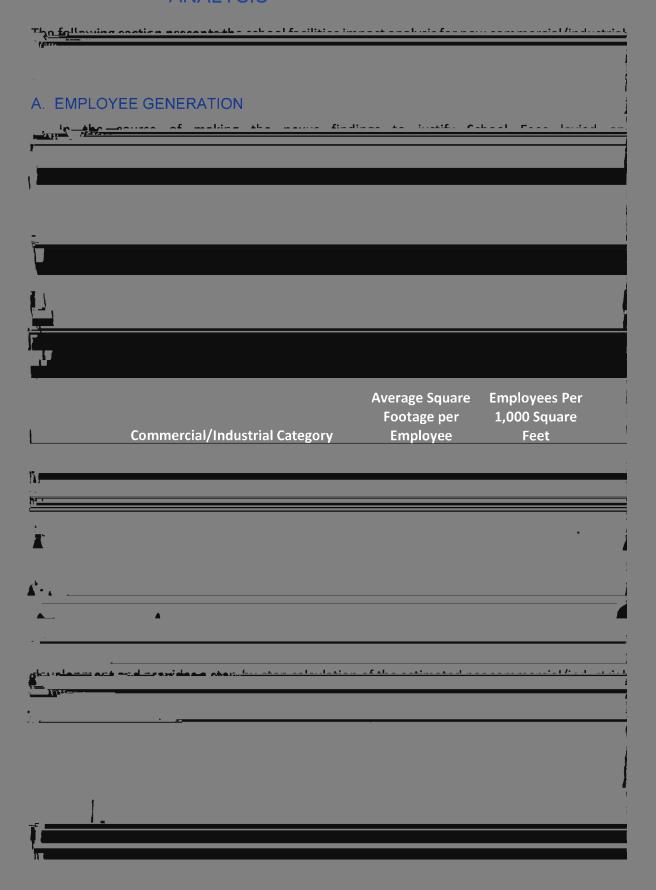

To determine the school facilities cost impact per square foot of residential development, first Projected Unhoused Students as shown in Table 5 for each school level. The result of this بار الانفسيسيانيونيات المخطف المنظيل المنظمية المنطقة المنظمة المنظمة المنظمة المنظمة المنظمة المنظمة المنظمة ا

TABLE 10
School Facilities Cost per Residential Square Foot

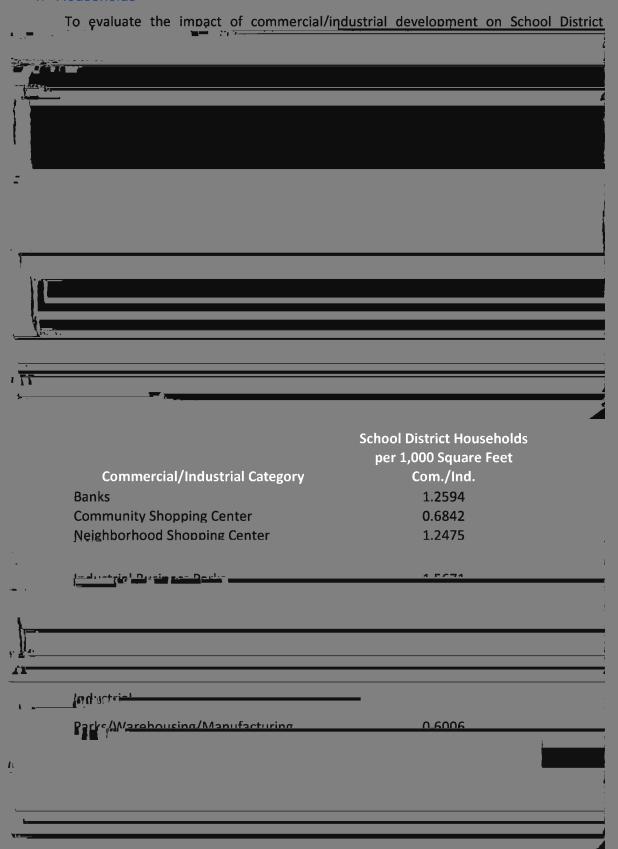

current maximum authorized residential School Fees of \$5.17 per square foot; therefore, the School District is justified in levying up to but not exceeding \$5.13 for residential construction and reconstruction.

SECTION IV. COMMERCIAL/INDUSTRIAL SCHOOL IMPACT ANALYSIS

B. RESIDENTIAL IMPACT

1. Households

2. Household Student Generation

The student generation impacts per 1,000 square feet of commercial/industrial development were calculated by multiplying the household impacts shown in Table 12

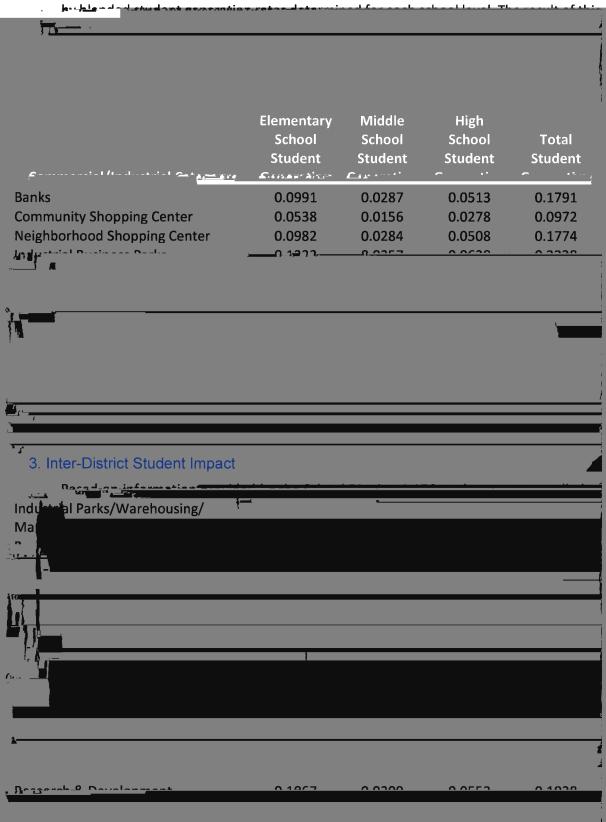

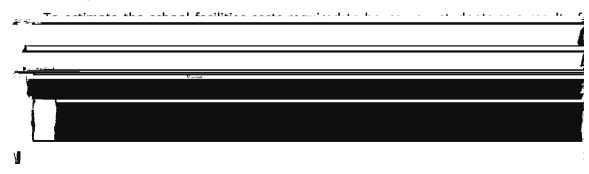

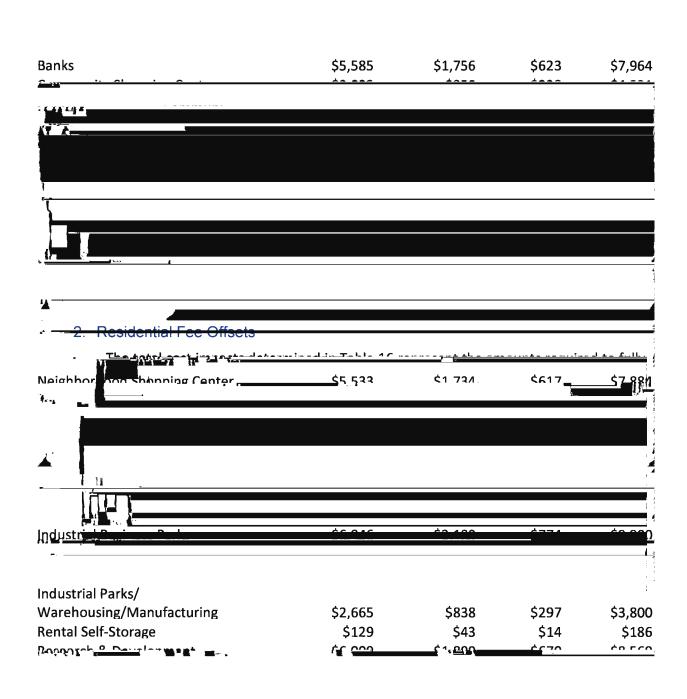

TABLE 14

C. NET IMPACT PER COMMERCIAL/INDUSTRIAL SQUARE FOOT

1. Cost Impact

The residential fee offsets are first calculated by using the Applicable Residential School **School District Residential Fee** Households per Offset per 1,000 Residential **Square Feet** 1,000 Square Feet **Commercial/Industrial Category** Com./Ind. Com./Ind. Fee per Unit square footage of a residential unit in the School District, which is 1,114 square feet. \$5.715 (\$5.13 x 1.114). The average residential revenues from a residential unit multiplied by the Household Impacts per 1,000 square feet of commercial/industrial

development, as shown in Table 12, results in the residential school fee revenues per
